

## Endorsements For Ready

“This book is the all-inclusive cookbook for the recipe of personal responsibility and emergency preparedness. It contains pages of ideas and implantable solutions that will save lives and anguish. I've trained, lived and taught emergency preparedness for the last thirty-eight years and I learned from this book!”

**Michael F. Staley**, Public Health Advisor, **Centers for Disease Control and Prevention**

“If you only read one book this year or in a lifetime read this one. This book will profoundly change the way you protect yourself and your family. ”

**Mark V. Cerney**, President/Founder **Next of Kin Registry (NOKR)**

“With the unusual number of disasters in the US and around the world the last few years, this book should be in every home in America. The worst part about the loss so many families have experienced, is that so much of it could have been so easily prevented, with the simple steps found throughout Ready.”

**Sara Feigenholtz**, State Representative, **Illinois General Assembly**

“Ready is an amazing wealth of information, and a “must have”, “must follow” book. The direct way that Janet and Laura present the material makes it easy to grasp the value of the topic. But what's really great is the way they've folded in real life stories which bring all the guidance down to me personally. I also love the stories about companies I'm familiar with and how they approach Emergency Management.”

**Ric Skinner**, Owner/Consultant at **The Stoneybrook Group**

“Exceptional! The Greenwalds took their outstanding book Ready In 10 and put it on steroids! You hear "plan". But for what? Why? How? What are the critical pieces of information I should have? This book is for you, and about you -- saving, recovering, even thriving when misfortunes, from small to catastrophic, come your way. Not sure "how to"? See their recommended "Cool Tools" section.”

**Clint Steele, PhD** -- **USGS Emeritus Geologist**, CERT Trainer
